Rives en Seine, May 25th , 2018

Object : Merger of “Revima” and “Revima APU”

Dear Customer, Dear Partner,

The purpose of this letter is to announce you a forth coming evolution of REVIMA group.

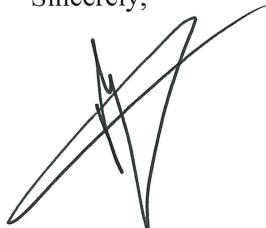

As you may know, the repair services provided so far to our customers have been supported by two in-house entities named REVIMA APU and REVIMA, dedicated to worldwide repair and overhaul services (MRO) for Auxiliary Power Units (APU), Landing Gear and Engine Parts, respectively. The two companies have been operating on the same site in Normandy (France) for decades and frequently for common aircraft programs, fleets and customers.

In a context of acceleration of the pace of the company growth, we have decided to merge the two entities into one unique company. The objectives of this merger are to create obvious synergies and efficiencies in a number of fields (ie: quality, environment, health and safety, human resources,...) and therefore eliminate non value added duplications all with the objective to better serve our valued customers and partners.

As of June 25th 2018, REVIMA and REVIMA APU will become a unique company named **REVIMA**, still located in our historical plant. This change doesn't impact the contact points for customers and partners, as we will operate the APU, Landing Gear and Engine Parts activities as Business Units of REVIMA, with dedicated leadership in operations, quality & customer support teams. Our quality procedures effectively remain the same.

Revima's team remains at your disposal to provide you with any information that you may require. We thank you for your cooperation as we implement this change.

Sincerely,

A handwritten signature in black ink, appearing to be "Olivier LEGRAND". The signature is stylized with a large, sweeping initial 'O' and 'L'.

Olivier LEGRAND
President
